

To Whom It May Concern,

Since Indiana implemented the Telephone Privacy Law I have been able to sit down to dinner with my family and not be interrupted by unwanted calls. We have also been able to watch a movie or play games without interruption. This is NICE!!!! I urge you to NOT change this law in any way. Before this law went into effect we received at least 10 calls a week. Sometime 2-3 calls in 1 evening. This is ridiculous. Some telemarketers call repeatedly, night after night, even after you tell them you are not interested, and to take your name off of their list. This law is great just as it is, and I urge you NOT to change it in any way.
